Food Plan Review Procedures

SUBMITTING PLANS

Before construction of a new food establishment, remodel of existing food establishment or converting of an existing structure into a food establishment, plans must be submitted to the city of Plano Building Inspections department along with "Food Establishment Plan Review" form, so the plans can be reviewed by the Environmental Health division. The City of Plano Food Code requires that complete plans be submitted, reviewed and approved before any construction and/ or remodeling can begin. Be sure the plans meet the City of Plano requirements for food establishments.

The plans must include the following:

- The name, location, general contractor and engineer of the plans.
- Kitchen layout, bar layout (if there is one), restrooms, dry storage and dumpster area for EH review. Also plumbing plans with grease trap information for Environmental Quality (EQ) review.
- Equipment schedule/list along with the finish schedule for the kitchen and restroom area.
- Copy of proposed menu for establishment.
- Plans must can be submitted electronically or paper plans, stamped by a licensed engineer and legible.

FEES

The applicable plan review fee must accompany each set of plans for the initial review. Plans without a fee will not be accepted. **ALL FEES MUST BE PAID IN FULL PRIOR TO RECEIVING AN APPROVAL TO OPERATE.**

REVIEW PROCESS

The plan submitter will be notified within 10 business days of receipt of the plan review submittal, if the plans are approved or if more information or changes are needed. Non-approval of plans will require submission of revised plans and may take up to another 10 business days for notification. **WE DO NOT OFFER TO EXPEDITE THE PLAN REVIEW, PLANS ARE REVIEWED ON A FIRST COME FIRST SERVE BASIS.**

Once a written approval of plans is received by the submitter, construction may begin. The plan review approval letter must remain on site until the completed construction is approved by this division. If the plans changed after they have been approved by this division, the plans must be re-submitted for approval. This review may take up to another 10 business days for notification.

REQUIRED INSPECTIONS

It is the responsibility of the submitter or their designee to schedule two inspections of the facility, Pre-Operational and Final/Opening inspections. All inspections require a minimum notice of two (2) business days and can be schedule by calling our office at 972-941-7143. The fee for these two inspections are included in the plan review fee.

The Pre-Operational Inspection is to be made 2 to 3 weeks prior to the completion of the project. This inspection is made to assure the approved plans are followed and to look for other unexpected issues that may result in the delay in the approval to operate. The inspector will leave a list of items to comply with before having the second inspection conducted.

The Final Inspection is to verify that all the work is complete and in compliance with the City of Plano Food Code. Also that items noted for correction in the Pre-Operational Inspection have been corrected. **PLEASE SCHEDULE FINAL HEALTH INSPECTION AFTER PASSING ALL THE REQUIRED CITY INSPECTIONS (FIRE, ELECTRICAL, PLUMBING, MECHANICAL).** All equipment must be in working order and the establishment has been cleaned thoroughly. Also please have a copy of a Certified Food Manager certification. If the establishment passes the final inspection, they will be approved to receive their food establishment permit upon the completion of paying the fees in full. At the final inspection, the establishment does not pass, a re-inspection must be schedule and a re-inspection fee will be assessed.

QUESTIONS

If there are any questions, please contact the office at 972-941-7143 or envhealth@plano.gov.
