A $100 Re-Inspection Fee Will Be Required After the First Inspection

Prior to the Permitting Inspection, the establishment must comply with the following:

- ☐ Completed food and liquid waste generator permit application and all required documents must be submitted to Environmental Health. The permit fees are paid to Environmental Health after the permitting inspection is passed.
- ☐ All plans for any completed new construction or renovations must have been submitted to and approved by the Environmental Health plan reviewer.
- ☐ Establishment must be clean, and free of construction materials and debris. Food is prohibited on site unless the establishment has been a continuation of operation.
- ☐ Hot and cold running water must be provided to all fixtures (100 °F for all sinks).
- ☐ A commercial dishwasher and or a three-compartment sink where applicable, both adequate in size to facilitate ware washing for the largest equipment must be provided. Each compartment of the three-compartment sink must 1/4 filled with water for drain test.
- ☐ Electricity must be provided throughout the establishment.
- ☐ Gas service must be provided to the establishment for gas fired equipment.
- ☐ All Mechanical, Electrical, Plumbing, Fire and Back-flow final inspections must be cleared by the City of Plano Building Inspections Department.
- ☐ All refrigeration equipment must hold at 40 °F or below with thermometers inside all units. All hot holding equipment must hold at 145 °F or above with thermometers inside. Freezer must hold at 0 °F or below.
- ☐ A sign (or 1 inch lettering) stating “No smoking” and/or the international no smoking symbol must be posted on all exit/entry doors and restroom doors.
- ☐ A sufficient number of garbage receptacles and dumpsters must be provided to hold refuse that accumulates.
- ☐ Establishment must be ready to open with all commercial grade food preparation and storage equipment fully set up and functioning on site. **Residential equipment is prohibited**.
- ☐ Check all finishes for compliance with the City of Plano Food C ode.
- ☐ Other Requirements:
    - Grease interceptor is properly sized, in working order and located outside of the food preparation and ware washing area. Provide most recent grease trap cleaning trip ticket.
    - Obtain food handler training for all staff who handle food within 30 days of employment.
    - Provide the Certified Food Manager certificate.
    - Provide contract for monthly integrated pest management pest control services.
